

this is the screen for MOZILLA FIREFOX but all internet browsers follow the same format

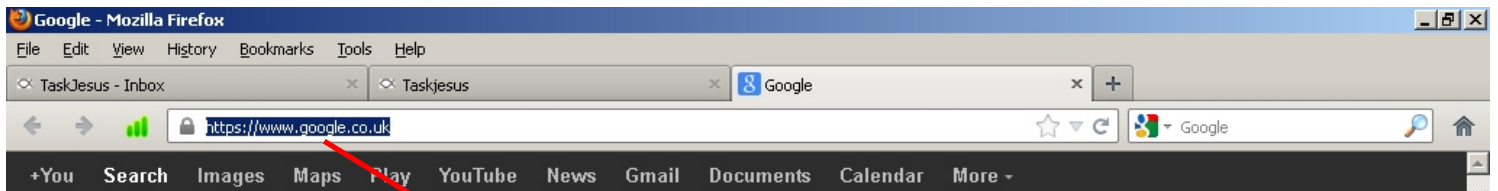

This is the address box, put website addresses in here
this is the only place for entering known website addresses

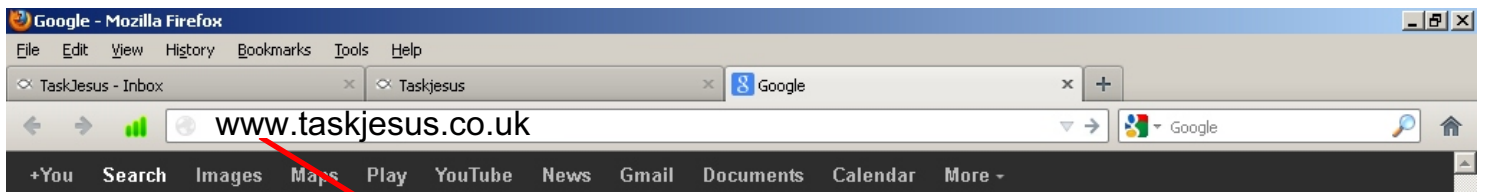

do not put website addresses in here

Google Search I'm Feeling Lucky

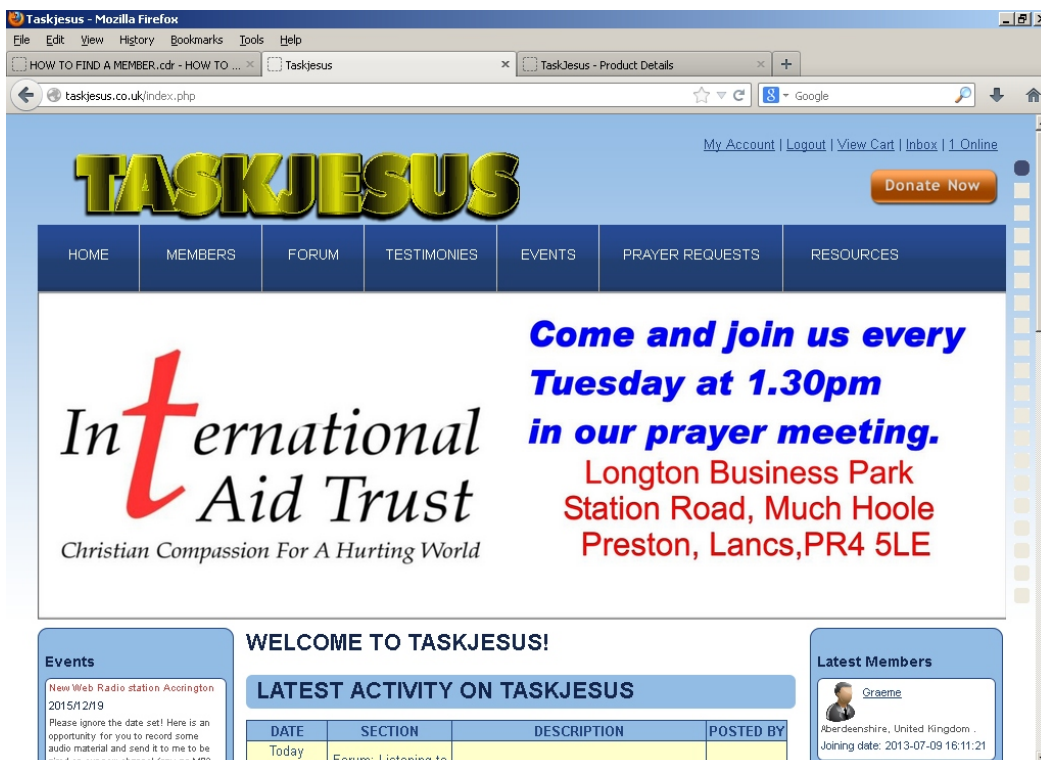

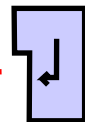

click on the website address and it will turn blue (highlighted)

treflyn@gmail.com ▾

type in the website address you want to go to
www.taskjesus.co.uk and press ENTER on the keypad

This is a test website, you can log in (using your current login details) and add stuff if you want to have a play around

When all the testing has been done, the test website will be deleted and the current taskjesus website will be replaced by the new design.
